

Lead Carpenter

At Dyna, the quality and integrity of the finished product depends on our ability to listen and respond to our customers' needs. We take pride in our ability to create and coordinate the best possible team for every job – and doing so demands a strong and open partnership with clients, architects, subcontractors, and vendors. From start to finish on every project, we place an extraordinary value on communication.

The Lead Carpenter will work on multi-million dollar home construction with an emphasis in remodel and whole house construction. You will work on all phases of the project from frame to finish carpentry. Candidates must have a strong background in finish work and unique architecture.

Dyna job sites are typically in and around the Seattle area and the Eastside. We offer highly competitive wages and generous medical, dental and vision benefits. We offer a 401K plan, have a generous Paid Time Off policy and a strong family-like work environment.

Desired Skills and Qualifications:

- Minimum of 5 years' experience in all phases of residential construction.
- Knowledge of residential construction and remodeling trades, practices, procedures, techniques, tools and equipment materials, specifications, quality control, cost control and safety.
- Proficient at the following tasks: framing, drywall, flooring, stain-grade trim work, hang doors, drill and set door hardware, set windows, layout for stairs and common rafters, read plans and utilize appropriate math skills.
- Must be reliable, and prompt, with a professional appearance and demeanor.
- Ability to communicate verbally in English and understand written instructions. Spanish-language skills are a bonus.
- Adept at establishing relationships with all parties involved in the construction process that facilitate harmonious working relationships during project, and permit prompt resolution of problems and conflicts as they occur.
- Must be "day one ready" arriving at work with tool bags and at the minimum the following personal tools: skill saw, cordless drill/impact, Sawzall, screwdriver combo bit set; level, utility knife, 50 ft. power cord, 25 ft. tape measure and a framing gun.
- Reliable transportation to get to job site, have a valid license and insurance required.
- Personal mobile smartphone is required to track your hours worked.
- Ability to pass pre-employment criminal background check.
- High school education, College, or Trade Certification a plus.

- Physical Requirements: Working conditions include being outside in all types of weather and inside of customer's homes and businesses. You should be experienced in working on construction sites, ladders, scaffolding, heights, power tools and equipment.
- Ability to perform tasks on all areas and aspects of construction project – i.e. ability to climb ladders, crawling, walking, lifting and carrying objects of up to 50 pounds.
- PPE (personal protection equipment) such as steel toe boots/ shoes, safety glasses, ear plugs, gloves, etc. must be worn on site.
